GMDSOFT PARTNERS WITH MH SERVICE AS A DISTRIBUTOR FOR DIGITAL FORENSICS SOLUTIONS IN INDIA

New Delhi, India – 06 March 2025 - GMDSOFT, a leading provider of digital forensics and cybersecurity solutions, is pleased to announce a strategic distribution partnership with mh Service, a globally recognized leader in forensic hardware and software solutions. Under this agreement, mh Service will serve as a distributor for GMDSOFT in India, expanding access to cutting-edge digital forensics technology across law enforcement, intelligence agencies, and corporate security teams.

India's demand for advanced digital forensics solutions is growing rapidly, driven by increasing cybercrime, fraud, and digital investigations. GMDSOFT, with its specialization in mobile, video, and drone forensics, is particularly well-suited to address India's cybercrime challenges. This collaboration will enable GMDSOFT to leverage mh Service's distribution network and technical expertise to deliver world-class forensic solutions tailored to the needs of Indian organizations.

"We are excited to partner with mh Service to bring our best-in-class digital forensics solutions to India. mh Service's strong presence in the forensic market and commitment to innovation makes them an ideal distribution partner. Together, we will empower investigators with the tools they need to conduct seamless and efficient digital investigations."
- **Jessy Jun**, **Senior Managing Director at GMDSOFT**

mh Service, with over 30 years of experience in forensic hardware and software development, sees this partnership as an opportunity to expand its footprint in India's fast-growing digital forensics sector.

"Partnering with GMDSOFT allows us to introduce cutting-edge forensic solutions to our clients in India. With the increasing complexity of cyber threats and digital investigations, our partnership with GMDSOFT ensures that law enforcement agencies and enterprises in India have access to the most advanced forensic tools available."
- **Jignesh Suba**, **CEO – South Asia at mh Service**

This distribution agreement represents a significant step forward in strengthening India's digital forensics ecosystem. By combining GMDSOFT's innovative forensic software solutions with mh Service's expertise in forensic hardware and distribution, the partnership will help organizations across India enhance their investigative capabilities and combat digital crimes more effectively.
